

These are the wolves that we have for adoption.
These are chosen to represent Wolf Gardens Wildlife Center because they are very socialized.

Not all rescued animals can be socialized enough to let just anyone pet them.
Others never meet a stranger.

While all of our animals are socialized to a good degree, many do not feel comfortable with strangers.

Because of this all of the animals are not placed on the In House Adoption Program, but if someone would like to adopt one of them, I know they too would appreciate it.

Socialized animals allow that their supporters will be able to pet them if they come for a visit.

Abenaki

This is Abenaki. He was one of six cubs that we rescued a number of years ago.
He is now eight years old and a very lovable.

He is frisky and tends to whine a lot if he feels that he is not getting his fair share of attention. Of course, in his opinion he should have all the attention.

He loves to go for walks on leash and once he settles down, he handles very well on leash. He loves visitors and gives lots of slobbery wolf kisses.

Talon

This is Talon. He is one of the four white color phase wolves that came to live with us. He is a bit of a whiner too.

Talon is now seven years old and a bit of a Daddy's baby. He loves attention and is very lovable.

Comanche

This is Comanche.

As you can see from his photo is a bit of a clown and one of the favorites of visitors and supporters.

Comanche attends Pow Wow on occasion as an ambassador for Wolf Gardens Wildlife Center.

He is a bit frisky and loves to play for hours.

Comanche is two years old and still acts like a bit of a cub on occasion.

Michi

Michi is the first official rescue that we made.

A veterinarian called and asked if we would take Michi. They were about to have to put her to sleep.

She was 19 months old when she came to live with us and is now almost 13 years old.

She loves to do presentations with Jim.

Michi has done presentations for Montgomery Zoo in Montgomery, Al and for our friends at Ruffner Mountain Wildlife Center in Birmingham, Al.

Though getting older, she still loves to run, jump, and play.

Michi is a bit of a clown too and loves to give slobbery kisses.

Santee

Santee was our second official rescue.

He came to us at 19 months of age weighing only 60 pounds.

He is old now and is a bit slow but he is a gentle giant now weighing in at over 110 pounds.

Santee never meets a stranger. He loves people and loves attention. The only danger from Santee is that he may lay down on your feet.

Santee is blonde color phase and is very heavy through the chest.

Lightening

Lightening is not on the adoption list because she is very timid of strangers. But as you can see, this beautiful little blond color phase girl loves to chill out.

She loves to have a shower in hot weather and keeping her out of the water tub while you are dumping it and changing water is not the easiest task of the day.

Un la si gi Wa ya

This is Siggy at the 1st Annual Spirit Of The Wolf Pow Wow in May of 2009.
He was 5 months old

Siggy is a large Dark (Black and Cream) male.

Thus his name, which means Dark Wolf.

Siggy loves people and loves to be at Pow Wow.
He is very loving and he too has a bit of the clown in him.
